A Had Person—He is Hugged against his

Will—Amusing Upshot of a Practical

Joke.

A most humorous scene transpired in a place

not a thousand miles from the city of Louisville,

one night last week, which, though a little an-

noyous, to the parties immediately concerned,

was yet so amusing and funny that we cannot re-

frain from giving the general outlines, suppress-

ing names of course.

Two singularly and beautiful couples, who

were, in every respect, as perfect as the

young lady, who, like her partner, was of that

happy type which turns everything into fun and

amusement. If the truth were told, we fear that

we should have to record the fact that these three

persons were not a little, but fast. They were

found of practical jokes, and were continually

playing all sorts of pranks with each other. All

three occupied a room on the ground floor,

and, as the young lady intended a party on the

night in question, and did not get home until

half past twelve o'clock at night. As it was late

they concluded not to disturb the household, so

they quietly slipped into their room through the

back door.

In about half an hour after they had left for

the party a young Methodist minister called at

the house, where they were sleeping and craved

a night's lodging. When he came to the door

of the young lady's room, he found the door

locked. He knocked, and the young lady

opened the door, and the minister entered.

He found the young lady sitting up in bed, and

she asked him what he wanted. He told her that

he wanted a night's lodging. She asked him

what he was doing there. He told her that he

was a Methodist minister. She asked him

what he was doing there. He told her that he

The N. B. of Labor—Refinement of the

Rev. Henry Ward Beecher, preached on last

Sunday morning, in Plymouth Church, before a

crowded congregation. He discussed the ques-

tion whether the forms of Christianity had been

as some skeptical men alleged worn out, and

whether it was necessary to take their

stand upon the "revelations of science and phi-

losophy." Mr. Beecher combated this idea with

an argument in favor of the Bible, and the great

truths it contained as opposed to speculative

theories.

In the evening the reverend gentleman deliv-

ered a discourse, principally to the younger por-

tion of his audience, on the necessity of active
